#### - OIL NEWS.

[BY E. T. KEMPER ]

It has been said that every possible necessity of a man's life, save the ter he drinks, may be supplied either directly or indirectly, through the use of petroleum products, and even the water may be pumped by a gasoline engine.

Rejiable information is an hand to the effect that certain partles are figuring on buying the property and production of the McMead Oil Company, Creelsboro, and the Indications are that should the Company decide to sell even a portion of their holdings it would yield a handsome return to the stockholders on their investment.

A number of oil men from different sections, some of them here for the first time, have been in this territory during the past few days making diiigent inquiry into the local situation, and at the same time making a lot of personal investigation. Considerable interest is being manifested in the securing of leases, but not very many in this immediate locality are changing hands at present, owing to the fact that so many land owners are holding out for "bonuses," when they should be satisfied to turn their acreage over free to reputable concerns who will develop the territory. Welis of small capacity even would prove much more profitable to the land owners than anything they might receive in the way of a bonus or in rentals, and operators are more inclined to spend money in drilling for oil than in the payment of privileges.

Mr. Geo. H. Palmer, president of the Palmer Oil Company, is greatly worrled at present over the non-arrival of his drilling rig which was shipped household and kitchen furniture, 1 spent her married life in Frankfort. weeks ago, and he says that unless it arrives within the next day or two he wili leave to trace the shipment in

Richardson & Goff, this city, drilli-Company, Denver, Colo, of which Dr. Frank D Hines, so well and favorably known here, is president, have just drilled ln a real oil well on the Russ Gilbert farm, located on Brush Creek, Cumberland county, near Bakerton. The depth is 165 feet, the quality of oil is of a superior grade, and the quantity is so great that a strong stream of oil has been flowing from the weil to Cumberland River, one haif mlle away. Parties from here have seen the well, and they report it to be a wonder. The new weil decated only a short distance from the "Oid English" well drilled in 1866, and which was credited with a daily production of twelve hundred barrels. This well was 190 feet depth.

Mr Elmo Pearce, the "live wire" from Biackweii, Okia., who has been here for several days past, and who is well-known to the oil fraternity in Kentucky and Oklahoma, reports that he is daily expecting parties here from Texas and Oktahoma, who are turning longing eyes towards this territory. Mr. Pearce also gives out the information that he has secured living quarters here and will bring his family to Coiumbia at an early date.

The J. E Carnahan Oil Company, drilling on the Henry Ingram farm, near town, have had a serious breakdown of their machinery, and operations are held up pending repairs. The work of repairing is being rushed as fast as possible and they hope to be able to resume drilling operations again within the next few days. Manager Whitis, who was here last week reports that they fare shipping a rig from Monroe county to Creelsboro where they will again begin drilling on some of their extensive holdings in that section just as soon as the machinery can be gotten on the ground. The shipment is being made by river and no unusual delay is antleipated.

A certain Refining Company is so anxious to secure the output of oll in the Creelsboro territory that they are | \$200 to 500 willing to construct a pipe line to that

field as soon as satisfactory contracts can be made with the producers in that section. With some six or seven good wells already completed, and others to be drilled as soon as the machinery arrives, retiners are beginning to sit up and take notice that a new field is being opened up very rapidly, and more than one concern is casting ionging eyes in that direction. It will not be a great while until a pipe line is in operation in that field.

Mr Frank Sweet, in charge of the

drilling operations of the McMead Oll Company at Creelsboro, was in town Saturday, and to hlm I am indebted for a complete and first hand statement of the situation as it applies to weii No. 4, reported in this column last week. Both oll and gas were struck in such quantities that the flow became ignited from the boller fire, and it was with difficulty that the drilling crew could either save the machinery or themselves from being seriously burned. The burning of the drill rope caused the tools to drop to bottom of hole, and the completion of the weil is held up pending the result of a "fishing" job. Mr. Sweet is of the opinion that the new well will, when completed, be one of the very best brought in on that lease.

Several drilling rigs are reported to be headed for the Creelsboro section, and it begins to look as if some very active additional operations will be under way there in the very near fu-

#### Public Sale.

On Thursday, Aug. 26th, 1920, two miles east of Columbia, on the R. A. Waggener farm, I will offer to the family of brothers and one sister, the highest bidder the following: All my sister being Mrs. Emma Collins, who his present salary. There was no here from West Virginia several milk cow, 3 head hogs, will weigh 125 The surviving brothers are D. W., J. lbs each. 1 good buggy mare, 4 years E., J. T., George H., and Robert Gowold: 2 good two year old mare mules, 1 dy. He also leaves one half sister, buggy and harness, good as new; 1 man's saddle good as new, a nice lot of garden truck, some hay and a lot ing for the Southern Oil & Refining of other things too numerous to mention. Sale will begin at 10 o'clock. L. B. Hurt, Auctioneer.

EDGAR ROYSE.

#### Visit Mammoth Cave.

A jolly automobile party given in honor of Mr. W. L. Weich, of Jackson, Ky., was composed of the following: Dr. and Mrs S. P. Miller. Mr. and Mrs. A. D. Patteson, Mr. and Mrs. J. F. Patteson, Mr. and Mrs. J. Preston Milier, Dr. and Mrs. O. P. Miller, Misses Mary and Julia Miller, Margaret Patteson, Mr. O. B. Miller and Master Russell Miller. The crowd left Columbia, Wednesday, of last week, at 8 a. m., en route to Mammoth Cave. On their way they visited the Monastery at Gethsemane and Lincoln Farm, reaching Cave City that night, where they were entertained by Mr and Mrs. Luther Williams and Mr. and Mrs. Kirby Smlth. The following morning the party accompanied by Mr. Williams proceeded to Mammouth Cave. After taking a most entertaining route, heartily enjoyed a delightful funch. After lunch they went to the Great Onyx Cave, which they declared to be more beautiful than Mammouth. On returning to Cave City that night, they heartily enjoyed a bountiful dinner at the Dixie Hotei. The following morning the party started on their homeward journey vla Greensburg, where they visited the historical scenes and had lunch. From there they went to Campbellsville, and after having dinner at the Wilson House, the party started for home, reaching there about 9:30.

WANTED .- A boy about 17 or 18 years old, with a fair education, to accept a position in this office. He will be paid a small salary at the start, and his wages will be increased as he progresses.

Mr. A. B. Gowdy, a Native of the Place, Dies in St. Joseph flospital, Louisville.

WAS WELL-KNOWN IN COLUMBIA.

Last Wednesday forenoon, about 11:30 o'clock, the subject of this writing breathed his last In St. Joseph Hospital, Louisville, where he submitted to an operation, the end coming about one week after going under the knlfe

He was close to 73 years old, a son of A. F. Gowdy. who was prominent In the affairs of Campbellsville and Taylor county during his life time.

The deceased was educated in Campbellsville and In Columbia. While attending the Presbyterian High School here, he became acquainted with Miss Lora Triplett, daughter of Lewis and and Frances Triplett, and they were subsequently married, and in a short time commenced housekeeping in the deceased home town. They lived happily together until about twenty years ago at which time the wife died. She left no children, and since her demise, Mr. Gowdy has made his home with his surviving brothers and at the hotel in Campbellsville.

For a number of years he was a cousistent member of the Christian Church, and gave liberally of his soon to lose Mr. W. H. Shipp, who has means for its support.

In disposition he was very quiet, but determined in his purposes, a man who will be greatly missed in his home town. He was the oldest of a Mrs. Henry Hord, who lives in Campbellsville. They are all in business in Campbellsville. Mr. Geo. H. Gowdy, being the principal owner of the Taylor County National Bank.

The remains left Louisville on the 5 o'clock train Wednesday afternoon, and the burlal took place in Campbellsville, after funeral services, Thursday afternoon, a large circle of relatives and friends following the remains to Brookside Cemetery where they were deposited by the side of his companion, his mound being covered with beautiful flowers

The discourse was preached by Rev. Z. T. Williams, this place

This town, where the deceased was well-known, sends its sympathy to those who have been most deeply affected by this death. God alone can bring succor to those who have aching hearts Intercede with Him for comfort, and be prepared to meet the departed when called to leave this world of sin and sorrow.

Every Adair county farmer who can leave his home on Friday, the 27th of August, should be in Columbia and be ready to visit the Demonstration Field, and see the Fordson Tractor in action. This demonstration will be put on by Buchanan Lyon Co. A man will be with the Tractor to explain every feature of its action. and lff. it will be one of the most Interesting sights ever pulled off in this locality." Do not remain at home on this day, but come and see something that will be of lasting benefit to you. For further partsculars read the back page of this paper.

#### The Bible Institute.

ing Sunday of this week

Four or five visiting ministers were here and a number of splendld addresses were made, talks that will prove very beneficial, binding the members to closer duties to the church and its ordinances. Tithing was discussed, and members who de not tithe, were

convencied that it was their duty to so do.

The addresses made by Dr. Stephens, of Louisville, Revs. L C Kelley, Martin, Scruggs, Bush, and Layman Geo E Hayes, of Louisville, and others were of special interest and were highly appreciated

Each day dinner was served in Mrs. Butler's yard, and the delightful good things the country affords were spread before the participants.

Taking it ail together it was a very profitable meeting, and good results

This institute coming on the eve before a series of meetings, will be a reminder of the duties of the members, better preparing them for the enjoyment of a series of religious dis-

#### The Ball Game.

The engagement at this place last Thursday afternoon, between the News-Journal Club, Campbellsville, and the Columbia Club was a disappointment, as neither ciub seemed to be in proper trim for the contest. In the first inning the visitors run in five scores. Will Young was in the box for Columbia and Alvin Lewis was behind the bat. The visitors continued to galn until the seventh inning when the home boys showed evidence of playing, gained a few scores, and when the contest ended the visitors had twelve scores to their credit and the home team eight. After the second inning Will Young surrendered to Slmon Finn, who did some splendld pitchlng, and lt looked to the onlookers like the result might have been different had he been in the box at the start. Young is a good pitcher, but the best often have off days. When the game closed the players were in good humor, and another meet will be called soon.

Place your order now for your Spirella. The prices advance Sept. 1st. Mrs. Geo. E. Wilson, Corsetierre. Phone 142. 43-2t

#### Services At the Presbyterian Church

Last Sunday a large audience greeted Dr. J. R. Crawford, of Paducah, at 71 acres of land. the Presbyterian church. He preach- 43 2t es in the same forceful manner as in years past, when he was the pastor of the Church, this place- The appointment gave him an opportunity to meet many of his old friends and it is needless to say that he was warmly greeted. While here he was a guest Crawford was here in the incerest of course, a large aueience being present The two latter were entertained at the home of Mr. and Mrs. Allen Walk-

Quite a delegation from Columbia and out in Adair attended the circus my home, Awandaville, seli at Campbellsville last Friday.

### Cutting Affray.

Last Friday night an ice cream supper at Cane : Valley drew quite a crowd. During the evening Eiver made known on day of sale. East and Brack Grant got into a playful scuffle, which was turned into madness, and Grant was stabbed three times about the back. After the trouble East left, going to Campbellsville where ne was arrested by Town Marshai Clyde: Crenshaw, who turned him over to the authorities cycles at a bargain. We also have a here Saturday morning. As we write, new 17 inch frame, giri's model bicycle Saturday forenoon, Grant is said to that we will sacrifice at a bargain. If be in a serious condition. Mr. S. E. Shively, who has been ln Manchester, Kv., for two weeks, returned home last Saturday night r. Shively and a number of other students.

Adair County citizens, recently purchased stock in a coai compan, but after they entered the organization, it cropped out that the affairs of the company were not properly managed. The local men here put their heads together and Mr. Shlvely was sent to Chicago, Ill., at that time headquarters for the company. He did not find things to his liking and there was a re-organization and Mr. Shively was elected temporary President. Headquarters were then removed to Manchester, Ky. On this last trip Mr. Shively was elected permanent President, and a large amount of watered stock was set aside, and the company was put upon a firmer foundation, and there is no doubt but the investments here are in much better condition and may yet prove very valuable. It has an inexhaustible mine of the finest of coal, and it is now being gotten out and marketed.

Former Attorney General Jas. Garnett is the company's flegal advisor, and he has already rendered valuabie assistance.

May Go Higher.

Car owners who are holding back on the purchase of tire equipment in the hope of a reduction in prices are likely to be disappointed. There is nothing in the tire manufacturing situation to indicate a downward trend of tire costs. On the contrary, a "break" that will necessarily mean the advancing of prices seems inevitable. A resume of the tire industry and the conditions under which it has developed in the last decade, causes the casual observer to wonder, in fact, that tire prices have not already begun to climb steadily. Unless one studies carefully the underlying reasons for the successful checking of tire prices in the face of overwhelming advances in virtually every other commodity, it is rather amazing to note that prices now are much lower than they were ten years ago. It is still more interesting to compare prices of standard manufacture tires today with prices of the same product at the beginning of the war. Good tires now cost no more than in 1914, There has not even been an appreciable advance in the last there is a possibility that tire supper at the home of Mr. and Akron enroute to the convention

more value for his money than termination to "hold out" should the benefit of the new church ever before. When one consid-spread among car-owners it is at Sulphur Springs. Everybody ers that prices of raw materials, more than probable than such invited. labor and transportation have an attitude would tend to create made more tremendous leaps in a reverse effect to the one dethe last five years than during sired and send tire prices rockany period in manufacturing eting. history the natural query concerning the manufacturers is, 'How do they hold down the prices?" And from this question comes the answer to another, "Will the prices go down?" It does not appear that a decrease is likely. Manufacturing genius, which has about reached its limit has kept down the cost to the tire user. The standard manufacturer has combated price increases by developing his processes. He has expended millions of dollars in the installation of new machinery, better machinery and new methods. He has brought his output up to maximum and has made his Montra Beard were visiting on profits on a quantity margin. He has smashed overhead expenses by use of these weapons and by putting his distribution on such a broad basis as to make it economical. Output has about reached its zenith. So long as demand continues strong

# WEST IS MAGNET

Majority of Ellis Island Arrivals Drawn to Industrial Centers by Higher Wages.

Women and Children Predominate-Work Increased by New Laws Governing Aliens-Europe Loath to Let Them Go.

No York.—The stream of immigration lawing through Ellis island has been noticea' ', deflecter' 'rom New York elly to It's led center through the last tyclye norths, and otherals give this as the explanation for the fact that the chy's 1920 census was only 5,621,121 instead of the 6,100,000 ex-164 1.

Official statistics regarding the destination of arriving aliens are sent to Washington to be tabulated and digested. For this reason destination ligures for the last twelve months were not available. One who most closely watches alien arrivals is J. F. Rowe, official money changer. He is quick to notice any unusual movement in the flow of immigration.

#### To the Manufacturing Centers.

Mr. Rowe asserted that money exchanged for immlgrants whose destination is New York city does not amount to 1 per cent of the amount exchanged for those giving other parts as their destination.

"In former years," said Mr. Rowe, "immigrants poured into New York city by the hundreds of thousands. They are now going to manufacturing centers such as Pittsburgh, Detroit and Akron, Ohlo, or to the coal and iron mlning regions.

"For the most part those arriving here now were in America before the war, and are acquainted with the country and attracted to sections where the best wages are paid. Before the war a majority of the arrivals had only hazy ideas as to where they were golug or what wages they were to receive.

"Another interesting fact is the change of location of some of the races. Not so many years ago most of the Irish arrivals flowed into Massuchusetts or scattered along the North Atlantic seaboard. Now they are going Into Oregon. It is noticeable, too, that more allers are going to California than ever before."

In January 24,900 aliens arrived bere: February, 22,000; March, 29,000; April. 36,000; May, 40,000, and in June me to and including the 19th, 31,000. Superintendent Baker of Ellis island said this immigration was made up mostly of worten, children and returning reservists. These latter are most ly Italians, and the figures for this month will show that most of those who left America to fight for Italy have returned.

#### Passports Hard to Get.

The fact that no great number of male aliens is arriving here does not mean a lack of desire to come to Amerlea, the immlgration officials say. Rather it means that European governments are not willing to further deplete the male adult population by allowing it to emigrate. The intending emigrant is finding it difficult to get passports under the new immigration laws. Also ship accommodations are harder to obtain.

Before the war from four to five thousand aliens arrived at this port each day, or about 150,000 a month. Notwithstanding the failing off in arrivals, however, Superintendent Baker said the work probably increased. This is because of the changes in the law. Not only do arriving allens have to pass examinations as to moral and physical fitness, but they must pass a literacy test and be armed with passports vised by the American consular agent nearest their home and indorsed by the American authority at the port of embarkation.

Under amendments to the law certaln persons are now exempt from the llteracy test and all of these must be detained to prove that they are entitled to exemption. Again, many women and children are coming to relatives here, and these must be detained until such relationship is proved.

#### Mother-Found Two Children Playing With Blacksnake

\*

Missing her two children, Mrs. George Mead of Susquehanna. Pa., located them in a field nearby. Her four-year-old son was ustride a biacksnake more than three feet in length, and his sister, Gladys, three years old, was strlking the snake on the head with a switch.

The youngsters were laughling, and the woman said the snake seemed to be contented. The reptile glided away at sight of the mother.

\*\*\*\*\*\*\*\*\*\*\*\*\*\*\*

#### Long Wedded Life.

Eaton, O.,-George Jones, ninetythree, and his wife, Hannah, eightyfive, have just celebrated their sixtyninth wedding anniversary.

Jones don't give tobacco credit for his long life, but admits that he has used it all his life. "Work and regular habits have kept

FOR IMMIGRANTS Arid Wastes of Arizona Transformed by Engineer

ter Supply From San Francisco Peaks.

Phoenix, Ariz.-Solving a problem that for years had puzzled the greatest engineers of the country, Charles H. Spencer has brought billions of gallons of water to the arid lands of Arlzona. The water comes from an underground flow on the snow-capped San Francisco mountains. The mountains, 12,611 feet above sea level, are of volcanic origin, and the total precipitation is equal to nine and one-

half billion gallons a year. irrigation experts had sought for years to solve the problem of saving this water, which was going to waste. and which, when turned on Arizona's deserts, would mean millions of a resavailable for use. Mr. Spelcer spent four years searching through the morphains, making careful tests and examining the rock formations.

His tireless labors were rewarded when he discovered a rlm of dacite cement, which carried the water to the stratums below. He found that by pierchig these lower stratums he could reach the underground flow, and in the spring of 1918 he filled the first of ils reservoirs, Crater lake, with 150,-000,000 gallons of water of true underground flow,

Mr. Spencer used seven extinct craters for reservoirs, with a combined capacity of 2,000,000,000 gallons. There will be no such thing as pumping costs. There is not an ounce of power required anywhere, for it is entirely gravity flow. By solving the secret of the hidden water supplies he has made it possible for arid lands to be transferred into beautiful gardens, rich farming lands and verdant grazing grounds.

#### PREDICTS SUPER-RACE

The population of America today is evolving into a super-race, a nation of that high intellectual and moral supremacy to all others of history not attained since the passing of the uncient Greeks and in America will be reached the culmination of age-long cycles of reincarnation—thus a Hindu philosopher, Baiman Pestjoni Wadia of India predicted in an address delivered in Philadelphia. He says the wearing of narrow and abbreviated garments by women indicates they are merry hearted and are rejoicing in their liberty.

### MARINE HAS NEVER SEEN U. S.

Born of American Parents in China He Enlists at the Legation.

Peking, Chlna.-The only United States marine in the world who has never seen the United States is on duty at the American legation here. He is private C. W. F. Childress, who was born of American parents in China. When he became of age a few weeks ago he decided to join the marlnes and enlisted at the legation.

Childress Is a tail, good looking lad who can speak the Chinese language like a native. His services as an interpreter are especially valuable to the marines. Through association with his parents and other American residents of China he is thoroughly familiar with the traditions and custom's of the United States. He is looking forward to the day when he will see the country whose flag he serves.

#### RAISES STATUS OF SEAMEN

International Congress Would Put Them on Same Legai Levei as Ship Owners.

Genoa.-The International Congress of Seamen adopted a resolution stating that the congress should recommend to each nation that seamen be placed on the same legal level with ship owners. The resolution declares this could be accomplished through the repeal of all laws and the abrogation of ail treaties compelling seamen to labor against their will when a vessel is in safety, and those providing incarceration for seamen failing to fuifil labor contracts.

The committee on working hours adopted the principle of the eighthour day. The delegates from Japan, Spain, France, Holland and Germany voted for the eight-hour day, while those from England, Sweden, Norway and India voted against it.

## PIPE SNOW TO DESERT TURKISH WOMEN BREAK CUSTOMS

Charles H. Spencer Found Hidden Wa- No Longer Shy, Veiled Creatures. but Work With Men in Many Lines.

### SEATS FOR WOMEN

Only the Very Old Men Rash Enough to Sit Down in the Same Car Seat With a Turkish Woman-Leaders Educated.

no longer the shy, veiled creatures the Pennsyl nia road system nor d who passed their time in the seclusion [1], while B. Gowen when he made I foreign men. They still cling to the coal hads, thrown back from their faces. They the went out with the long streke and are highly ornamental and becoming, cathe home to the final shot with a Most Turkish women don't want to record eard it als cridit. smart, black silk veils which some of the other team. the women wear are very fetching. The great merchant mails his dag to when draped artistically over their the mast, says "damn the torpedoes."

#### Car Scats for Women.

are special seats for women, but the still and play for the cup." llimsy curtains which are supposed to screen them from the gaze of men are usually drawn back and it is not uncommon to see men standing in the compartments for women. Only very old men, however, are rash enough to slt down in the same seat with a Turkish woman. Turklsh women seldom go to a theater where there are men. Special matinees and evenlng performances are arranged for women only.

The war has done much to break down the barrier between Turkish men and women. The women were needed so badly as nurses and rellef workers that the government had to avail itself of their services. And now it is regarded as quite proper for men and women to be associated in all sorts of charitable and educational works. Consequently many women who were formerly forced to content themselves with seclusion in a home where fancy work and French novels were the only liversions are devoting their time to Lospitals, orphanages and other philanthropic institutions.

Educated Women Leaders. Women who have been educated ibroad or in the foreign schools in Purkey are the leaders in this moveaent for greater freedom for their ex. Their broad experience in war work has interested many women in olitics, and they have openly played great part in the nationalist movenent. In the Constantinople American Yoman's college the Turkish girls ake great interest in basketball and ther athletic games, and the effect pon women who have come under forign influence is making the old life f seclusion and inactivity unattracive to younger Turkish women.

### **3ERLIN NO LONGER MAGNET**

City's Travel Bureau Urges Need of Desirable Visitors at German Capital.

Berlin, Germany.—As a center of attraction for visitors from outside, Berlln ls on the wane, said Chairman Landau of the city's foreign travel bureau, which held its annual meeting here recently.

Landau stated that although in the year under review 1,389,000 strangers visited the capital, they were on the whole not the class of visitors that were desired. Berlin, he added, had become hated in the provinces and no traveler came to Berlin for pleasure. Moreover, there was an alarming exodus of industrial undertakings from Beriin.

The authorities, he said, must wake up and offer fairs and such like as an inducement for the desirable class of visitors to come to Berlin.

#### Bridegroom, Only 105, on Belated Honeymoon

San Jose, Cal.—Charles H. Diamond, one-hundred-and-fiveyear-old bridegroom, and his seventy-four-year-old bride of Stevens county, Washington, are spending a beiated honeymoon here. They married thirty-one years ago, but the marriage was never recorded. Because he's "getting a little old," Dlamond decided to go through a second marriage ceremony in order that his estate might go to his wife.

One the Movies Missed. Columbus, Incl.—The rescue of Mrs. John Sprague Com death in a runaway would have done credit to a movie thrilier. When her horse ran away Charles Hiatt cranked up his flivver and with David Marr on the running board, gave chase. As the auto passed the horse Marr made a flying leap, grabbed the relns and brought the animal to a standstill on the brink of a high embankment.

#### PICK EMPLOYEES WITH CARE

Modern Business Men No Longer Rely on the "Hit-or-Miss" Method of Selection.

There was a time when picking emloyees was a hit-and-miss job, a trialand-error matter which few employers believed could be corrected. This is the day of doing things right and the modern employer is now selecting his associates, from the office boy to the man highest up, with as much care as he would launch on an entirely new business venture. William Marvin Jackson, director of the Personnel Development service, writes:

"If employees are carefully selected, with an eye to their real adaptability and filness for the work to be done, it goes without question that they are much more likely to take an Interest in their work, and hence, the business "self. If they are interested, they will get along well with their fellows and operate with their superiors. All of which means that they will grow, and here is no satisfaction for the emoyee greater than that which accomvanies the knowledge that he is geting somewhere. Patting him on the ack may make him feel good, and paying him a good salary may make im work harder. But giving him a w job and bigger job will alone ake him supremely happy, will alone make him work with complete alanlop, with thorough-going enthusiasm." -Forbes Magazine.

#### No Doubt Who Was Boss.

Sometimes It is easy to see, even before a couple is married, just which one is going to be the boss of the household. Recently a big, robust woman stepped into the office of Register of Deeds Adler Johnson. "Is his where I get a license?" she asked. "What kind of a license?" asked

"A marriage license," said the wom-

"No, we don't handle them," said Adler. "Go to the first door down the hall on your right."

"I knew at first that this wasn't the place," sald the big woman, with an alr of disgust; "that's what I told hlm." Thereupon she stepped into the hall, and when the door opened Adler could see a little man walting

It was evident that the woman had usurped command and was going to take charge of the marriage license business, not to mentlon, of course. the honeymoon and all the rest of the alliance.-Fort Scott (Kan.) Tribune.

Australian Rabblts Selling Fast. Rabbits have been doing great damage in the grazing districts of Australla, and strenuous efforts to eradicate them has resulted in the killlng of a vast number of these animals. Some 100,000 bodies are now in cold storage awaiting shipment to England. The embargo on the export of rabbit skins was removed in December last, and the boom in rabbitskin prices has produced remarkable competition in slaughtering the pest. The ruling average price paid to trappers for skins is now \$1.82 per pound. and the demand for skins by the United States and European markets is so great that it cannot be satisfied, and it is thought that prices will go still higher. Experienced trappers are making up to \$97 per week for the skins alone.

#### Wanted a Quantity.

Helen's mother came from a large family and Helen loved to visit her grandma's house, as there were always so many young uncles and aunts to play with. One day, after returning from one of her visits, Helen was taken to the bedroom and was shown a tlny new baby sister. Helen did not seem to be at all enthusiastic, and her father, surprised at her lack of interest, asked:

"Well, what do you think of your new baby sister?" Helen replied: "Hm i Only one?

#### LOOKING TO SOUTH PACIFIC | GET RESULTS FROM HOLIDAY

White Men Planning Complete Possession of Fertile Islands of That Far-Away Ocean.

With Europe a seething mass of unrest and discontent and uncertainty, your Britisher is looking to the Islands of the South Pacitic, already owned by the empire, as the next place to goand to exploit, to use the expression of a lot of people who do not know the meaning of the word. Already corporations are being formed to colonize the islands, and beautiful word pictures of the advantages of a residence upon them are being painted.

The truth is, for some years the ful pictures which one sees of the natives, gives a little idea of what is really to be s on in the country. They are not the wild, naked people routing at large, etting each other and the missionaries. Dubber plantations, cocernt groves, phosphate mines and its other industries are operated by Eureceans. And schools and churches are encountered on every hand, with the honk of the horn of the automobi'e heard in the shade of the palms.

end of his road until there is no more country to be settled up, and there are still vast areas to be brought under his domain. In Africa, and upon the islands of the sea, he is setting his foot and clearing up the jungles and conquering the pests and becoming acclimated. But the end is not yet; there is still much to be done, and the chances are that the next few years will see an exodus to these faraway places where a beginning has already been made.-Columbus Dispatch.

#### MADE HIT WITH RECITATION

Prince's Speech Consisted of Verses From the Koran, but Audience Didn't Know it.

It is interesting to recall that during the recent European tour of Prince Felsai of the new kingdom of Syrla, his memory of the Koranic verses stood him in good stead. In London, at a dinner in the Guildhall, the prince, who was the guest of honor, and who knew little French and less English, was called upon to reply to the toast of his health. Beside him sat his friend and mentor, Colonel Lawrence, Oxford professor and oriental scholar, to whom he whispered as he rose to acknowledge the ford mayor's speech. Colonel Lawrence nodded his assent, and the prince addressed his audience in flowing Arable periods, winning appreciation and applause.

When the guest of honor had resumed his seat, Colonel Lawrence, as is interpreter, rose to express in Engish the prince's sentiments of gratitude for his reception, and to voice his devotion to the principles of democracy and allied solidarity. It was not until many days had gone by that Colonel Lawrence allowed it to be cnown among his friends that what the prince had whispered to him was: "I'll recite the verses from the

Koran about the cow." Thus did the diplomatic professor deceive the unwitting ears of his Guildhall friends.—Munsey's Magazine.

Country's Motive Energy.

The gauge of a nation's industrial might is the amount of motive energy which it can command for the manifold fields of production and the essential contributory activities. We have maintained our supremacy in manufactured output very largely because of the vast amount of power which we could call into service, Robert G. Skerrett wrote in the Scientific American. Modern nations expend far more energy than the combined muscular ability of their population and beasts of burden. The margin is covered by the employment of mechanical energy in the form of power. To accomplish the work done annually In the United States, would require the labor of 3,000,000,000 hard-working slaves. The use of power gives to each man, woman and child in this country the service equivalent of thirty servants.

#### Why Orchids Were Caged.

Visitors to the flower show held recently in the Royal Horticultural haii at Westminster, England, were surprised to find a number of rare orchids confined, like so many wiid animals in the zoo, within a heavy wire cage. It was explained that as the flowers represented a new addition to the orchid family, the grower was naturally anxlous that his fellow dealers should not share his triumph. Had it not been for the cage, an unscrupulous competitor might have stolen some of the powdery pollen from the biooms, and used it to fertilize plants of his own. Normally adhering to the bodles of vislting insects, the polien might easily have adhered to the tip of the thlef's finger.-Popular Mechanlcs Magazine.

United In Bonds of Peace

In the presence of the chief executives of Ecuador and Colombia, the corner stone of a monument commemorative of the happy termination of the boundary dispute between the two countries, was recently lald at the bridge of Rumichaca on the frontler. President Alfredo Maquerizo Moreno of Ecuador and President Fidel Suarez met half way on the bridge and greeted each other amid a salute of artillery and cheers of spectators of both nationalities. The presidents delivered addresses referring to the monument' Why didn't you get a real many, like as a symbol of peace and friendship between their respective countries.

Vacation Days Should Be as Carefully Planned as is the Work of the Year.

To the question, "What will you do on your holiday?" some might reply, discerning a possible tilt against the strennous holiday, "Nothin.!" That would be as wrong as doing too much. The perfect holiday, for the average worker, should be on crescer and diminuendo lines observes a riter in London Answers.

You pass into your forming's or three weeks quietly. Your lealy is, liberally, a machine. It has been doing work-hard, monotonous workwhite man has been gradually getting | for a year. To switch it on suddenly a footbold in the region. The delight- to something quite different is to ask for trustile.

The wallers to Bridgen date hard of the vol. They begin with John W. He a houselves in trial. Sayligova or regains to the

totalisty his Jury min de-In the transfer of the second out for, here a contract to the Paris of the Mean And All And All In it good tri in to lest of health. The white man will not reach the state of your 1 1 '.y is for another years work, that you should gradually slove down with your heliday activities resure your work without, as it vere, laving to make yourself do it.

Who has not known that pest-holiday feeling of not being able to settle down? It is the result of living a holiday at high pressure and ending at high pressure. Let the steam off gradually, so that you may pass from your holiday back to your work without effort.

#### REFUSED TO ABANDON GAME

Plucky Terrier Dled With Fox It Had Run to Earth and Killed in Combat.

What is believed to be an unprecedented end to a combat between a fox and a terrier is reported from the Lake country.

A stout hill fox hunted by the Blencathra hounds for three and a haif hours on the mountain heights above St. Joins-in-the-Vale sought sanctuary in a fissure of rock in a crack near the skyline of Wanthwaite. Here he fuced one of the gamest terriers belonging to the pack and, scrambling to a shelf in the rocks, was able for some time to give as fiers e punishment as he got.

The serrier killed the fox, but reused to leave it and followers and hounds had at last to quit the crags so that they might make the descent of one of the most dangerous ravines of the mountain range before darkness. When himisman and whip refurned next no rning to the craz they found terrier as well as fox lying dead outside the borran.

An examination of the terrier showed that the fox had inflicted no mortai wound upon him. The terrier had dragged the fox out and then, loth to seave it, had laid down beside it. It was clear that he had died from exposure during a bitterly cold night. No similar case has, so far as is known, occurred before.-London Times.

When in Doubt, Add 10 Per Cent. A Wail street man was negotiating

with a country tinsmith for the renewal of the rain gutters on his house. Inquiring cautiously about the cost of copper gutters, he was surprised to find that they would cost him at the rate of more than 50 cents a pound, though the metal sells in ingots around 19 cents.

"Weli," said the smith, "you see the men that work the metal up in the shop get \$9 a day. The shop adds 10 per cent for the workmen's insurance and aims to make at least \$1 a day on every man. When It comes to me. I figure the cost of the materials and labor, and I have to add 10 per cent to the wages to cover Insurance cost, too. Then I have to add 10 per cent to the whole thing for overhead, 5 per cent for the use of the car and 13 per cent for being a boss. So I really don't get any profit on the job at all. All I get out of it is my living, you might say."-Wall Street Journal.

Making a Lion Love a Lamb. Mr. Bostock has told how he succeeded in making a lion and lamb firm

"I placed in the lion's cage all sorts of toys of the animal variety—cotton sheep, horses, rabblts-in fact, a reguiar Noah's ark," sald Mr. Bostock. Then I specialized on manufactured sheep, but it took a long time for the lion to find out that they were not good to eat. Finally a live lamb was introduced. At first the lion looked surprised, and then lay down and gently pawed the stranger. The iamb did not like this, and drawing back a pace or two butted the iion in the mane. This appeared to amuse the lion greatiy; he playfully roiled over on his back, while the iamb butted again. Now they are fast friends, and an insurance company would be justified in taking the iamb as a first-class risk." -F. H. Cheley in "Stories for Talks to Boys."

World's Glass Industry.

Glass factories of Bohemia are fliled with orders and working at fuil capacity, but are likely to suffer in the future because of the competition that arose in this trade during the war. Japan is one of the largest competitors. New glass factories also have been founded in Belgium, the Ukraine,

Cereal Shipped to Japan in In- Conspiracy in the War Risk Insurance Bureau Unearthed.

> Men Involved Were Handling Claims of Crippled Soldiers for Compensation.

Washington.—A conspiracy of emplayees in the war risk insurance bureau to defraud veterans of compensation due them for disabilities susof the began of markets, United tained during the war has been unearthed by the United States secret ast, less than a thousand pounds | service, according to announcement by

> Three arrests have been made. The makies of the men arrested were not made public.

"All those concerned in this outrage will be proscented to the limit of the law," said Secretary of the Treasmry Houston, in a statement issued

The nen involved in these crimes were enalged in the task of landling claims of ex-soldiers for contrasation. The method captoyed, as ret red by the secret service, was substantially as follows:

A soldier, presenting his cli im in person, was advised by one of the conspirators who handled it that he was entitled to \$200 or \$300. At the same time the employee denounced the fact that the award was so small.

Taking the matter under further consideration, he told the claimant that he thought he would be able to put through an award for a greater amount, but that, of course, he would want to share in the excess payment.

The claimant agreeing, a check for the larger amount was made out. The truth was that the soldier was entltled to the larger amount and to the full proceeds of the check.

#### GIVES UP TITLE TO MARRY

compelled to renounce all his royal prerogatives, as well as his place in the line of succession to the Danlsh throne and to descend to the ordinary nobility with the title of Count Rosenberg because of his marriage to the danghter of Count Calvi de Bergolio, Italian ambassador to Copenhagen.

- 12. How can the School aid in Reducing the High cost of Llvlng-Mrs Page, Katherine Willis.

J R. Hayes, Chairman, Azro Hadley, Secretary.

How Roosevelt Points to Path for Progress and Peace of Country.

Describes Democratic platform as definite document and solemn pledge that, given the authority the Democratic party will accomplish clear aims.

. Takes determined stand for the League of Nations and terms it "a practical solution of a practical situation."

Declares that "the Constitution is in every way supreme' to the League of Nations; that the Democratic peace plan "is not anti-national," but "antiwar."

States conviction that "the eague will not die," adding that 'an ideal does not die which meets the call of our mothers."

Holds that, from the practical point of view alone, peace by resolution of Congress is unworkable; that, from that, from the point of view of millions of Americans who served in the war, and millions "who had the splendid hope of peace for future generation it is an insult and a denial of our national purpose."

Voices faith in his fellow countrymen—faith that they are not afraid to enter the League of Nations, to do their part to lift the burden of war from the world.

Sees in James M. Cox a strong leader for the people who has notably demonstrated his executive ability and constructive statesmanship as Governor of Ohio—a leader who has "clear vision of things as they are and independence, courage, and skill to guide us along the road to things as they should be without swerving one footstep at the dictation of narrow partisans who whisper 'party' or selfish

Asserts that Governor Cox is a "clear-thinking business man" who can eliminate "archaic shortcomings of our governmental machinery" by reorganization of departments.

Advocates handling of government expenditures by trained men only.

Shows how Democrats offer "a larger life for our country and a richer destiny for our people" with a lorward program for conduct of both domestic and international affairs.

Expresses faith which makes him "very certain that America will choose the path of progress and set aside the doctrine of despair, the whisperings of cowardice, the narrow road to yesterday."

#### Its All In How You Feel.

To say that "To smile and the world smiles with you" is but another way of saying that the world always seems to you, just as you feel and not as the world really is.

Many strong points based on psychology are found in the Christian Science catechism. Much use might be made of these scientific facts if they re spected the limit to which they can be carried.

That the world is kind, or cold, gay or sad, better or worse 💥 must be determined by the mind of man for so far as immediate information is concerned.

The city to the country lad is a place of wonderous beauty and the magnificent entercainment, if they are to be the judge, the oldest inhabitant of the city may think it cold, monotonous; heartless, cynical, corrupt and demoralizing.

It is apparent at once that it is impossible to tell from the mind of man what the conditions are of any particular place or of the present status of the world in general.

the resident thereof are known to be a thing of beauty and joy forever.

Then what is the real condition of any city or section? Good to those who like it, and bad to those who do not? No one man or class of men are capable of judging conditions and are unqualified to pass judgment except to indicate their viewpoint so far as it goes in making up the judgment of the world.

The sailors in the hammocks on the vessel were thankful while the storm raged and tossed their vessel about, because they were not in the city and subject to the danger of falling roof etc., while the city dweller felt his superior security over the sailor's condition.

#### Pilgrim Has lett.

A story that has running through it a vein of humor is to the effect that in the old days of hand composition, a printer from Pennsylvania, known as Pilgrim Haslett, on a migration southward, wandered into Barbourville, Ky., and asked the editor of the Mountain Advocate for a job. "Well," said the editor, "I can put you to work, but I'm afraid I can't pay you much money," "Make me an offer," said Pilgrim. 'All right. I can interests that murmur profits.' " give you two meals a day at my I want with the four dollars?"

# Save Money-Put Goodyear Tires on Your Small Car

Avoid disappointment with tires made to be sold at sensationally cheap prices by using Goodyear Tires built to deliver maximum mileage at minimum cost.

The high relative value built into Goodyear Tires, of the 30 x 3-, 30 x  $3\frac{1}{2}$ , and 31 x 4-inch sizes, results from the application of Goodyear experience and care to their manufacture in the world's largest tire factory devoted to these sizes.

Such facts explain why more cars, using these sizes, were factory-equipped last year with Goodyear Tires than with any other kind.

If you drive a Ford, Chevrolet, Maxwell or Dort, take advantage of the opportunity to enjoy true Goodyear mileage and economy; equip your car with Goodyear Tires and Heavy Tourist Tubes at our nearest Service Station.

#### WAR "MYSTERY" MADE CLEAR

Men on the Leviathan Now Understand How Their Officers Detected Them in Smoking.

Men who sailed on the Leviathan when she was being used as a transport will learn with interest the explanation of a "mystery" of the giant liner in those war days, a mystery which has been the subject of many a midnight conference in the lee of the deckhouse. Only recently a former officer of the Leviathan told the story. It appears that several of the crew sought a lower hold far from the haunts of the officers on duty and there, believing themselves carefully concealed, they smoked to their hearts' content. But the ship had a fire detection system consisting of a series of pipes to the holds, through which a suction fan is continually drawing air samples to the wheelhouse. Thus the officer on duty there noticed the curling wisps of smoke coming out of the pipe from one of the lower holds. Sniffing the smoke he detected the old familiar oder of tehacco.

It was an easy matter to hurry down and catch the men in the act and start them on a round of extra duty, which cured them of smoking aboard ship. They were puzzied to know how the officer had traced them. The hold was way down near the keel, far from the wheelhouse and there had not been another man within many yards of their position. They knew no officer had followed them and they took it for granted that there was no direct connection between the hold and the wheelhouse. And no one enlightened them during many trips to France.-New York Evening Post.

#### SERVED IN ORIENTAL STYLE

Magnificent Banquet Given by King Hussein of the Hedjaz to Lord Allenby.

A banquet given by King Hussein of the Hedjaz to Lord Allenby, the British high commissioner, as described by an Arab correspondent of the London Times on March 2, was a striking example of oriental magnificence. After preliminary visits and military reviews, in which the Bedonin cavairy dashed by at full speed, firing their rifles, the banquet was held in true Arab style in the municipality buildings at Jeddah.

On the table, which was eighteen feet broad by thirty feet in length, barefooted waiters dressed in rich Arab costume walked about helping the guests, 70 in number, to slices of the joints of roasted half sheep stuffed with almonds, rice and spices. Each guest had three or four plates, and was surrounded by some 20 or 30 dishes of salads, fish, roasted chickens, pilaff of mutton and sweets of all descriptions. The king's band of musicians played throughout the ban-

At the end of the feast the king's servants handed round silver basins with ewers of scented water for the guests to wash their hands in. Coffee was served in another room while guests of a lower degree sat down at the banqueting table. The remnants of the feast, which were considerable, were distributed among the inhabltants of Jeddalı and the crews of the British ships at anchor in the harboi. -Current History.

#### The House Famine.

Morris Hillquit was discussing in Albany the heinous profiteering on rents which so many New York landlords have been practicing.

"And desplte this profiteering," he said, "houses and apartments are in greater demand than ever. Well-located tenants have their bells rung two or three times a day by total strangers who anxiously inquire if by any chance they think of leaving soon.

"I heard of a chap who entered a newspaper office recently and said to the girl behind the counter:

"'I want to advertise in your paper for a house!'

"Yes. How many insertlons?" said the girl briskly. 'We make a reduction for space taken by the year, and we have also a very reasonable threeyear contract that would probably suit you better still."

Windmill Generates Electricity. The windmlll has not been generally found available for the generation of electricity because of the irregularity of the air currents, but this has been overcome by a Swedish Inventor. Instead of being directly connected to the dynamo in the usual manner, the mill-wheel shaft is geared to a hoisting device, which serves to elevate a two-ton weight to the top of a 53-foot steel and wood tower. When the weight reaches the maximum height, it is released, and, as it falls, actuates the dynamo, which is mounted on a bracket at the apex of the tower with the mill wheel. A storage battery and switchboard are housed in the lower portion of the tower.

Just Like an Apple to Marjorie. Little Marjorie, who is three, told her mother, the wife of a Muncie manufacturer, the other evening, that while the mother was uptown shopping she had been taken by a servant to call on her father in the latter's

"What time dld you go?" asked the

"Oh, in the core of the afternoon," replied the little girl.

"Mother doesn't understand what you mean by the 'core' of the afternoon." It was explained to Marjorie. of grown folks.—Indianapolis News. tral Magazine:

Persons of Adventurous Dispo ort Have Spent Thrm Amid Arcas and Savag: Dangers

Mr. Elklas, the wealthy years American who recently took his bade for a honeymoon "as near the North pole as he can comportably get." is: by no means the first bridegroom who has spent his "menth of honey" in this chiliy environment, says Londons

A few years ago Mr. Max Fleische mann, a Chicago millionaire. at his bride's request, took her straight from the altar to the Arctic waste: they spent, on their own exid wer "delightful" months, huntin; wals; reindeer and polar hears, two of whother fell to the bride's own gur Fleischmann's horeymoon wird. obe; we are told, consisted of an assurtment of sheepskin dresses, Ma. d with

#### INDIAN IDEA OF RECUMENCE

Time Designated in Simple Fo dan-Journeys and Distances To 14

The American indians of entry in reckened time by what thes "sleep" referred to a sun-to-si of 24 hours and his "moon" the white man r uzhly and in [16] calls a month. The fadians at movard. To incl. to the middle first half of the daylight pe o'clock-he pointed upward between the horizon and the and to indicate mid-afternos. o'clock-he polited toward the a >. site quarter. He spoke of the case of horizon as "sunrive" and of the w. t. ern horizon as "smiset."

Journeys and distances between different points were measured in to tell how far he land traveled or the tell how far one point was from another, the old-time Indian would sax a certain number of "sleeps." Ording rily, a "sleep" in this sense correspo 1ed to something like 35 miles—the distance a man could cover in a day, traveling at an ordinary pace on foot. However, it was not unusual for race carrying important messages to make: twice 35 miles or more in a single 24-

#### New York Landmarks Going.

The "down town" section of Nowr York is losing one of its landmarks by the demolition of the Eastern hotest to make room for an office building. For nearly a hundred years it has been the favorite hostelry of Americans seafaring foll. "Dynamite Johnty" O'Brlen, well-known for his practice of shipping arms to the Latin-Americans countries, concected many or his fillbustering schemes in this hotel, which he made his headquarters.

One of the features of this building was its beams of solid maliogany. In 1822, when it was constructed, cargoes of supplies were frequently shipped from New York to South American ports, and when a returns cargo could not be secured mahogany was brought back, serving the purpose of both cargo and ballast. These cargoes were sold cheaply, and were often used in the construction of New York: buildings of that period.

#### A Heavy Exit.

I had had a misunderstanding with my employer, and when I handed its my resignation I told him in very plain Engilsh what I thought of him; he, also, pointing out a few faults be thought I had. A few months later. after answering a blind ad for a posttion, I received a reply naming a "me for an appointment. My name at 'ha? time being an exceedingly commen one, it was not recognized; nelther did I recognize him, as he had moved his office, and changed the firm name. Upon being ushered into the office I met my former employer face to face. We were both speechless, and I not catch my breath until I had becked out and was in an elevator going down .- Ciucago Tribune.

#### City Minus Cafeterias!

Buenos Aires has no cafeterias for women and only one in a modified form for men. The first one for girls In the city is soon to be opened by the Y. W. C. A. The only steam table in Buenos Aires was discovered by Y. W. C. A. secretaries in the storeroom of > gas commany. It had been sent from England for a food exposition and never used after that. It is now installed in the Y. W. C. A. The cafeteria when opened promises to draw & crowd for more than the usual reason.

#### It Did

"My dear sir," said the salesman, courteously, as he handed his customer his package and no change, "your will find that your suit will wear like

And sure enough it did: The man "Why, I mean the middle," she said hadn't worn it two months when it simply, as wondering at the ignorance began to look rosty. New York Com-

# SPECIAL DEMONSTRATION

# Fordson Tractor Plowing and Field Demonstration, Friday 27th.

# All Day

On above date we will have a Special Tractor and Plow Demonstrator with us direct from the Ford Motor Co. It will certainly be worth while to see this wonderful Tractor in operation. We will arrange to have cars to run between the demonstration field and town for all that want to see the demonstration. Absolutely nothing ever pulled off in this section before to equal the demonstration to be given.

Every farmer should see it regardless of whether he is interested in Tractor purchase or not.

Special talks and lecture will be given on the most practical way of farming, they alone will be worth the time you will spend.

# Come and Meet Your Friends for They Will be There

The farm that the demonstration will be held on will be announced at our place before the 27th. Same demonstration will be held at Campbellsville, the 26th.

### 146 ACRES

Mr. E. B. Long and Mr. F. W. Courtner joint administrators of the Issac Koons Estate have instructed us to sell the Issac Koons farm goated in Utica township, Clark County, Indiana, being 8 miles East of leffersonville, and 4 miles West of Charlestown and within 1 mile of a station on a ration line having 6 cars daily to Louisville. This farm has been in the Koons family for nearly a century and considered to be the very best farm in Southetn Indiana. It lays well is watered by never failing spring, is fenced and cross fenced with hog fencing and is proved with a 9 room two story brick house in good condition, three large barns and all other necessary out buildings.

The price on this farm is \$200 per acre and considering the excepstional quality of the land and the condition that it is now in we consider it the best buy that we have to offer.
